## NATIONAL TRAINING PACKAGE

The Mechanical Exhaust Fitting Vocational course is part of the Nationally Recognised Automotive Training Package AUR 05.

The components of a National Training Package are:-

- Units which define skills and knowledge required to perform specific tasks in the workplace.
- Nationally Recognised Qualifications related to workplace requirements and based on industry Competency Standards.

## PROGRAM INFORMATION

Mechanical Exhaust Fitting training is available as an Australian Apprenticeship through Quality Automotive Training.

The training is available using a number of delivery options designed to meet your specific requirements. These options are:

1. Day Release, 1 day per week.
2. Block Release, 1 week per month.
3. A combination of above with on-site training and assessment.
4. Open Learning training delivery with on-site training and assessment.

It is anticipated the program can take up to 12 months to complete.

## COURSE / CAREER DETAILS

This Australian Apprenticeship is designed to provide people who are entering the Automotive Industry with Mechanical Exhaust Fitting skills and qualifications.

This Vocation will involve many practical tasks including removing and replacing faulty exhaust systems, including mufflers and pipes.

Exhaust Fitters fabricate components including bending new exhaust pipes and modifying and making up new brackets.

It is also necessary to heat and weld exhaust components and to remove and replace manifolds and extractors.

Trainees will be required to operate within a safe working environment. Good customer contact and communication skills are also an important aspect of this Australian Apprenticeship.

This vocation can provide numerous career paths including:

- Specialising as a Qualified Automotive Exhaust Fitter
- Supervision or Management in an Automotive Exhaust Fitting Business
- Continue studying to gain Automotive Mechanical Technology Qualifications
