NATIONAL TRAINING PACKAGE

The Automotive Mechanical Steering and Suspension Vocational course is part of the Nationally Recognised Automotive Training Package AUR 05

The components of a National Training Package are:-

- Units which define skills and knowledge required to perform specific tasks in the workplace
- Nationally Recognised Qualifications related to workplace requirements and based on industry Competency Standards

PROGRAM INFORMATION

Automotive Mechanical Steering and Suspension training is available as an Australian Apprenticeship through Quality Automotive Training.

The training is available using a number of delivery options designed to meet your specific requirements. These options are:

1. Day Release, 1 day per week
2. Block Release, 1 week per month
3. A combination of above with on-site training and assessment
4. Open Learning training delivery with on-site training and assessment

It is anticipated the program can take up to 12 months to complete.

COURSE / CAREER DETAILS

This Australian Apprenticeship is designed to provide people who are entering the Automotive Industry with Automotive Steering and Suspension skills and qualifications.

This Vocation will involve many practical tasks including servicing repairing and overhauling vehicle steering and suspension components.

The automotive steering and suspension specialist may also be required to carry out wheel alignments and to diagnose faults with steering and suspension systems.

Some electrical work may be required including servicing and repairing electronic systems.

Steering and suspension repair persons often fit aftermarket suspension kits to four wheel drives and passenger vehicles.

Trainees will be required to operate within a safe working environment. Good customer contact and communication skills are also an important aspect of this Australian Apprenticeship.

This vocation can provide numerous career paths including:

- Specialising as a Qualified Automotive Steering and Suspension Service Person
- Supervision or Management in an Automotive Steering and Suspension Business
- Continue studying to gain Automotive Mechanical Technology Qualifications
