NATIONAL TRAINING PACKAGE

The Automotive Mechanical Underbody Vocational course is part of the Nationally Recognised Automotive Training Package AUR 05.

The components of a National Training Package are:-

- Units which define skills and knowledge required to perform specific tasks in the workplace.
- Nationally Recognised Qualifications related to workplace requirements and based on industry Competency Standards.

PROGRAM INFORMATION

Automotive Mechanical Underbody training is available as an Australian Apprenticeship through Quality Automotive Training.

The training is available using a number of delivery options designed to meet your specific requirements. These options are:-

1. Day Release, 1 day per week.
2. Block Release, 1 week per month.
3. A combination of above with on-site training and assessment.
4. Open Learning training delivery with on-site training and assessment.

It is anticipated the program can take up to 12 months to complete.

COURSE / CAREER DETAILS

This Australian Apprenticeship is designed to provide people who are entering the Automotive Industry with Automotive Mechanical Underbody skills and qualifications.

This Vocation will involve many practical tasks including service and repairing of vehicle underbody systems including exhaust, brakes and suspension.

The Automotive Underbody repair person will need to develop good diagnostic skills to determine faults and decide on a preferred repair action.

They may also carry out welding and heating procedures.

Trainees will be required to operate within a safe working environment.

Good customer contact and communication skills are also an important aspect of this Australian Apprenticeship.

This vocation can provide numerous career paths including:

- Working as a Qualified Automotive Mechanical Underbody Repair Person.
- Supervision or Management in an Automotive Mechanical Underbody Repair Business.
- Continue studying to gain an Automotive Mechanical Technology Qualification.
